- Extremely water repellent • Long lasting protection
- Excellent color retention • Resist blistering and flaking •

Ideal For:

Furniture Fixtures • Panellings • Cabinets • Doors • Beams • Wood Trims

PURECOAT PREMIUM OIL WOODSTAIN

An oil type semi-transparent stain used for coloring interior and exterior wood surfaces, such as furniture fixtures, panellings, cabinets, doors, exposed beams and wood trims. It is easy to apply, penetrates through without raising the grain of the wood providing clear and sharp colors. It serves to emphasize the grain structure intensity thereby enhancing the natural beauty of the wood. Variation of color in the wood can be controlled by applying more or less as required or by reducing oil stain with PureCoat Paint Thinner. It can also be inter mixed to create other conventional color.

DIRECTIONS FOR USE

Reduction: Use as is. Use PureCoat Paint Thinner if necessary to reduce color tone.

Application: Brush, spray, or wipe with rolled cloth

SURFACE PREPARATION

For maximum paint performance, surface to be painted must be dry and in sound condition, free from loose dirt, dust, oil, grease and other foreign matter.
